Education

NIT, Durgapur, West-Bengal – *Integrated Master of Science in Chemistry* **Dec 2021 – Present**
JNV, Bolangir, Odisha – *Class X & XII (CBSE)* **Jul 2015 – Apr 2019**

Experience

Data Analyst Intern at Edulyt, Remote **Jul 2025 – Aug 2025**

- Analyzed customer credit and repayment behavior to uncover monthly spending patterns and segment-level risk trends
- Built SQL-based pipelines to compute credit utilization metrics and identify overuse anomalies
- Collaborated with leadership to translate data insights into risk management and growth strategies, improving decision accuracy by 7%.

Artificial Intelligence & Machine Learning (AIML) Internship at Edunet Foundation, Remote **Jun 2025 – Jul 2025**

- Built a Python regression model to forecast employee compensation using 13 financial and demographic variables
- Improved model accuracy to 85.73% through iterative tuning and feature selection, enhancing reliability for compensation predictions
- Interpreted key variables affecting pay disparities, demonstrating strong business insight from data.

Projects

e-Commerce Transactions Analysis - Python, Clustering **Jan 2025 – Jan 2025**

- Broke down customer engagement problems into key data-driven components to identify behavioral patterns using K-Means clustering and Principal Component Analysis
- Designed a logistic regression model to identify high-value lookalike customers from behavioral metrics, enabling precise targeting and boosting customer acquisition efficiency and Return On Investment
- Delivered actionable insights that enhanced user retention and business growth, aligning with product and marketing teams

Certification

The Ultimate MySQL Bootcamp– Udemy **Jun 2025**

- Completed SQL training on joins, subqueries, indexing, and efficient schema design for practical databases
- Created normalized relational systems using real-world queries and scalable logic structures

Accenture North America Data Analytics and Visualization Job Simulation on Forage **Jan 2025**

- Analyzed marketing metrics in Excel and presented insights through dashboards and visual reports
- Delivered client-oriented recommendations based on cleaned datasets and campaign performance trends

Skills & Expertise

- **Technical**: Python (Pandas, NumPy, Scikit-learn), SQL (Joins, CTEs, Window Functions), Power BI, Excel
- **Analytical**: Business Data Analysis, Statistical Modeling, Problem Solving, Data Visualization
- **Soft Skills**: Communication, Cross-functional Collaboration, Analytical Reasoning

Position of responsibility

Video and Production Head - Maths N Tech Club, NIT Durgapur **Apr 2024 – May 2025**

- **Led a team** of 12 creative professionals, including 2 skilled video editors and 10 talented designers, overseeing the production process to ensure the timely delivery of **high-quality** monthly posters and engaging video content
- Managed the end-to-end production process for MNTC, **overseeing** all aspects of video editing and graphic design to ensure brand consistency, visual appeal, and audience engagement across various platforms

Senior Coordinator - Aarohan Technology Festival, NIT, Durgapur **Apr 2024 – Apr 2024**

- Overseeing end-to-end event execution, ensuring efficiency and **timely completion**
- Coordinated sponsorship outreach and resolved on-ground challenges under tight deadlines
